Joseph Ologunja, MD

Medical Doctor | NHS Clinical AI Fellow | AI/ML Engineer

ologanj@gmail.com · linkedin.com/in/josephologunja · github.com/Joseun

PROFILE

I am a practising NHS GP and Clinical AI Fellow with a background in medicine, software engineering, and machine learning. I have spent the last decade working at the intersection of clinical care and technology, first as a doctor in Nigeria and the UK, and then building AI systems professionally. My current NHS fellowship focuses on deploying, evaluating, and governing clinical AI tools in real hospital workflows. I understand both what clinicians need and how to build the systems that serve them.

Heidi is solving a real problem I face every day. I want to help build it.

EXPERIENCE

Fellow in Clinical AI | NHS England / Royal Wolverhampton NHS Trust

Aug 2025 – Present · Wolverhampton, UK

- Deploy and critically evaluate clinical AI tools within live hospital workflows, covering safety, equity, legal compliance, and effectiveness.
- Curate clinical datasets in line with data protection regulations and NHS governance standards.
- Work within an agile multidisciplinary team of AI specialists, clinicians, health economists, and medical physicists.
- Communicate findings to hospital management, regulatory bodies, software developers, and clinical staff.
- Develop policy and standards for the regulation of clinical AI across the trust.
- Lead quality improvement projects and present clinical trial results in AI.

Specialty Trainee (GP) | Bourne Galletly Medical Practice / Swineshead Medical Group

Apr 2024 – Present · Lincolnshire, UK

- Deliver patient consultations integrating digital and emerging technologies while maintaining information governance standards.
- Develop individualised care plans in collaboration with patients, grounded in evidence and ethical principles.
- Manage clinical complexity and uncertainty within fast-paced GP settings.

Specialty Trainee (Ophthalmology) | United Lincolnshire Hospitals NHS Trust

Aug 2024 – Dec 2024 · Boston, UK

- Assessed and managed common eye conditions; coordinated rehabilitation pathways for visually impaired patients.
- Recognised the psychosocial impact of visual impairment and its effect on healthcare access.

Specialty Trainee (Emergency Medicine) | United Lincolnshire Hospitals NHS Trust

Dec 2023 – Apr 2024 · Boston, UK

- Triaged and managed acutely unwell patients; ensured timely escalation and clear multi-channel communication.

AI Engineer | Lights on Heights

Mar 2023 – May 2024 · Lagos, Nigeria

- Built and maintained machine learning models integrated into production systems.
- Conducted statistical analysis on large datasets and ensured models met privacy and security standards.
- Collaborated across engineering, product, and data teams from concept through deployment.

Specialty Trainee (Palliative Care) | St Barnabas Hospice
Aug 2023 – Dec 2023 · Lincoln, UK

- Provided compassionate end-of-life care within a multidisciplinary team, with proactive planning and personalised support.

Medical Officer | Marigold Hospital and Critical Care Centre
Apr 2022 – Feb 2023 · Nigeria

- Provided 24-hour medical cover; managed a wide range of acute and chronic presentations under consultant supervision.

Junior Data Scientist | Hamoye.com
Feb 2022 – May 2022 · Nigeria

- Applied data science techniques to real-world healthcare and general datasets.

TECHNICAL SKILLS

• Python, SQL	• TensorFlow, Keras, Scikit-learn
• Microsoft Azure	• GitHub
• Data pipeline management	• Big data tools and warehousing
• Data visualisation	• Clinical AI evaluation and governance
• Machine learning model deployment	• Information governance (UK GDPR, CSO Training)

EDUCATION

Diploma in Software Engineering | African Leadership Experience (ALX / Holberton School)
Aug 2021 – Sep 2022

MB; BS (Bachelor of Medicine and Surgery) | University of Lagos
2011 – 2018 · Lagos, Nigeria

CERTIFICATIONS AND TRAINING

- DeepLearning.AI TensorFlow Developer Specialization
- Google Africa Developer Training Program
- Google Machine Learning Bootcamp SSA 2022
- Safeguarding Adults: Level 3

PUBLICATIONS

- Knowledge, attitudes, and decision making towards prenatal testing among antenatal clinic attendees in Lagos University Teaching Hospital (cross-sectional study).
- Correlates of knowledge of genetic diseases and congenital anomalies among pregnant women attending antenatal clinics in Lagos, South-West Nigeria.
- Cardiac manifestation of COVID-19: a preliminary report.
